for the definitive list of eligible marques and models.

Preservation Class

The best preservation car or motorcycle is an unrestored and original vehicle which has been properly maintained in good operating condition. It is also a vehicle that is 30 years or older. Vehicles that are seriously deteriorated barn finds or static non-running displays are not normally eligible for preservation judging. Please refer to <http://icjag.org/preservation-judging-guidelines/> for a fuller explanation of selection and judging.

Special Displays

Special Displays, as the name suggests, bring together a select group of vehicles that illustrate an important element in the history and evolution of motor vehicles. We curate these classes, which are by invitation only. Please contact registration@hillsboroughconcours.org if you wish to have your vehicle considered. To broaden the scope of these displays, by default the vehicles are not judged. These are the Special Displays for 2020:

SD3 Art Deco

Art Deco is a style that embodies luxury, glamour, exuberance, and faith in social and technological progress. It took its name, short for Arts Décoratifs, from the “Exposition internationale des arts décoratifs et industriels modernes” (International Exhibition of Modern Decorative and Industrial Arts) held in Paris in 1925. This display will show select automobiles that exemplify the Art Deco style of the 1920s and 1930s.

SD4 Ford v Ferrari

Ford’s attempt to improve its image by having a successful racing program led to the development and campaigning of the legendary GT40. The bitter and personal rivalry between Ford and Ferrari, which focused on winning the 24 Hours of Le Mans, became well known to the public as a result the recent movie, Ford versus Ferrari. This display will include relevant cars related to these marques.

SD5 Super Cars

Supercars are high-performance street-legal sports cars. This by-invitation display will showcase a select group of the most exciting examples of recent vintage.

SD6 Ragtime Racers

Automobile racing began the moment the second car was completed. The Ragtime Racers are a collection of mainly pre-war (that’s World War I) racecars that bring back the thrill of the early days of auto racing.

SD7 Orphans

The Hillsborough Concours uses the term “orphan car” to include any marque of motor vehicle built by a manufacturer that has discontinued business entirely. We exclude from this the long list of discontinued marques from a still-existing vehicle manufacturer (e.g., Austin-Healey, DeSoto, Edsel, Oldsmobile, LaSalle, etc.).
